Description

Caribbean 45 flybridge built in 1996 and powered by twin 550hp Detroit diesels. Over the past few years just about every part of this boat has been updated. With lounges upholstered in leather trim, stone bench tops fitted to the galley, polished teak rear bulkheads, upgraded lighting, teak cockpit, twin moulded fibreglass cockpit units and a larger marlin board just to name a few. The Caribbean 45 boasts a huge rear cockpit, probably the largest available in a boat of this size with a hull that some regard as one the best sea keeping hulls ever produced in this country. The air conditioned saloon is open and spacious with a port side lounge that converts to additional berthing with the starboard side containing an L-shape lounge. There is also a lower station, large flat screen 3d TV, Vhf radio, SSB radio and stereo system. The twin cabin layout has the air conditioned master cabin on the port side with ensuite while the forward cabin houses three additional berths with another bathroom. The galley is well appointed with U-tec fridge, U-tec deep freeze and ice maker. There is a Convection microwave and four burner cooktop and an abundance of storage in the overhead and lower cupboards and draw units. Some of the boats other options and features include, 12.5 KVA Onan generator, hard top with four sided clears, Cockpit sun awning with removable extension and rear shade cover, slim line venetians in the saloon, Raymarine C120 display with Radar, chart plotter and sounder, Raymarine auto pilot, Two VHF radios, 27mg radio, SSB radio, two separate stereos for the flybridge and saloon, teak cockpit, TV and air conditioning fitted to the master cabin, Air-conditioning in the saloon, Cockpit U-tec fridge/freezer, cockpit sink unit with draws and storage, Game poles, rod holders, and loads more. The boat is currently here at Sylvania Marina and available for inspection.
